

CICLO DE VIDA

CICLO DE VIDA

Ordenados:

- Constructor
- OnChanges
- OnInint
- DoCheck
- AfterContentInit
- AfterContentChecked
- AfterViewInit
- AfterViewChecked
- OnDestroy

```
import {
  Component, OnInit, OnChanges, DoCheck, AfterContentInit,
  AfterContentChecked, AfterViewInit, AfterViewChecked, OnDestroy
} from '@angular/core';

@Component({
  selector: 'app-one',
  templateUrl: './one.component.html',
  styleUrls: ['./one.component.css']
})
export class OneComponent implements OnInit, OnChanges, DoCheck,
  AfterContentInit, AfterContentChecked, AfterViewInit, AfterViewChecked,
  OnDestroy {

  constructor() { }

  ngOnInit(): void { }

  ngOnChanges(): void { }

  ngDoCheck(): void { }

  ngAfterContentInit(): void { }

  ngAfterContentChecked(): void { }

  ngAfterViewInit(): void { }

  ngAfterViewChecked(): void { }

  ngOnDestroy(): void { }

}
```
